2. **FURTHER ACTION**

If a demand for international preliminary examination is made, this opinion will usually be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA"). However, this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written opinions of this International Searching Authority will not be so considered.

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of three months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.

For further options, see Form PCT/ISA/220.

1

Reference is made to the following documents:

D1 : EP 1489117

D2 : EP 1308471

2

The subject-matter of independent claim 1 differs from the disclosure of D1 in that:

- the amount of methacrylate compounds in the total acrylic components is not given or not derivable.
- there is apparently no monofunctional monomers of which the homopolymer has a Tg of 150 °C or more (said Tg was not found for the monofunctional monomer).

2.2

The solution to the problem proposed in claim 1 of the present application is considered as involving an inventive step over D1 (Article 33(3) PCT) since it implies the combination and choice of two technical features.

3

The solution to the problem proposed in claim 1 of the present application is considered novel and inventive over D2 for the same reasons as for D1.
